

15/12/2010

Dear Valued Customer

We are pleased to inform you that we signed yesterday with Lirad Marketing Company Limited and MELTA PCB Ltd. an agreement to acquire all shares of MELTA Company Limited.

The purpose of this agreement is improving service and customer satisfaction, through increasing production capacity while producing in the two sites, one in Migdal Haemek and the other in Tsiporit Industrial zone.

Improve our competitiveness by exploiting the knowledge and skills at each site and getting optimal synergy of these two companies and the advantage of scale.

Completion of the deal still requires approvals, and unfortunately - we can begin to give you the enhanced level of service only after receipt of such approvals within a few weeks from now.

Until the final approval the two companies will continue working in the current format.

We will inform you with the completion of the transaction.

We believe that together with you we can leverage the acquisition process for all parties.

Sincerely,

Menashe Aharoni
CEO

and Avi Zeifen
VP of Marketing and Sales Director
